

10th Anniversary of Kazusa Arc.

International Symposium on Advanced Functional Genomics

Date: October 11-12, 2007

Kazusa Akademia Hall, Kisarazu, Chiba, Japan

Scope of the symposium

The scope covers innovated technologies and applied genomics & proteomics on the following fields; microarray technologies, chemical biology, neurobiology, stem cells and database construction. Contributions on material science and nanotechnology are also welcome.

Featured speakers

Matthias Uhlen (KTH, Sweden)
Thomas Joos (Tuebingen, Germany)
Carl Borrebaeck (SwedenBIO, Sweden)
Shozo Fujita (Kanagawa, Japan)
Masatoshi Hagiwara (Tokyo, Japan)
Minoru Yoshida (Saitama, Japan)
Kazuhiko Nakatani (Osaka, Japan)
Kenji Yokoyama (Ibaraki, Japan)
Steve Oh (Biopolis, Singapore)
Terence CW Poon (Hong Kong, China)
Michihiro Igarashi (Niigata, Japan)
Tadashi Kondo (Tokyo, Japan)
Michael Hamacher (Bochum, Germany)
Haruhiko Bito (Tokyo, Japan)
Masanori Taira (Tokyo, Japan)
Akhilesh Pandey (Baltimore, USA)
Michael Cusick (Boston, USA)
Osamu Ohara (Chiba, Japan)

Call for Posters

There will be a poster session. All submissions must be made online.

Registration

There is no fee for this symposium but registration is required.

The web address is

<http://www.kazusa.or.jp/workshop/human2007/>

Lunch-time seminar on 12th is supported by Luminex Corporation.

The symposium is organized by Takahiro Nagase & Hisashi Koga (Kazusa DNA Res. Inst.), and sponsored by Kazusa DNA Res. Inst. & Kazusa Arc.
